THE LAWYERS' TRAVEL SERVICE LAUNCHES QUARTERLY LAW FIRM BUSINESS TRAVEL INDEX
Index compares past eight quarters for law firm, financial services, and business clients.

New York, December 21, 2009 — The Lawyers' Travel Service, the 6th largest corporate travel management company in the United States as ranked by *Business Travel News*, announced today that it has launched the Law Firm Business Travel Index, which will be updated quarterly going forward, comparing the past eight quarters travel patterns for law firms.

The Index illustrates the following statistics for the most recent eight quarters:

- Law firms average airfare price paid by quarter
- Law firms average hotel rate paid by quarter
- Law firms breakdown of the percentage first, business, and economy class tickets by quarter
- Law firms breakdown of the percentage domestic vs. international tickets by quarter

In association with its parent company, the Ovation Travel Group, The Lawyers' Travel Service has also launched the Financial Services Firm Business Travel Index and the cross-industry Ovation Business Travel Index.

“These Business Travel Indexes, which we will maintain quarterly, track the patterns of law firms, financial firms, and overall business travel,” explained Jennifer Achim, Vice President of Marketing, The Lawyers' Travel Service. “Through the Indexes, The Lawyers' Travel Service will be providing a snapshot of what has been happening over the past two years in law firm travel, financial services firm travel, as well as in business travel as a whole. Did prices go up, stay the same, where are the dips, has anything changed? The intention is for these Indexes to serve as a benchmarking resource for law firms, businesses and travel managers, allowing organizations to see where they stand in comparison to the averages.”

The Law Firm Business Travel Index data is culled from a cross-sample of The Lawyers Travel Service's law firm clients, representing over \$70,000,000 in annual air spend.

The Financial Services Firm Business Travel Index data is culled from a cross-sample of financial services industry clients, representing over \$50,000,000 in annual air spend.

The Corporate Business Travel Index data is culled from a cross-industry-sample of clients, representing over \$100,000,000 in annual air spend.
